### Empathy Map

Create an empathy map to understand your customer/user from four perspectives - what they Say, Think, Do, and Feel - in relation to the problem your project addresses. This helps the team build a customer-centric solution.

|                                                                                                                                                                                                                                                                      |                                                                                                                                                                                                                                                |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p><b>SAYS</b></p> <ul style="list-style-type: none"> <li>• I want to grow the right crop for my land.</li> <li>• I need simple farming advice.</li> <li>• I cannot afford agricultural experts.</li> </ul>                                                          | <p><b>THINKS</b></p> <ul style="list-style-type: none"> <li>• Which crop will give me the highest yield?</li> <li>• What if I choose the wrong crop and lose money?</li> <li>• I hope technology can help me make better decisions.</li> </ul> |
| <p><b>PERSONA NAME</b><br/>Small-Scale Farmer</p>                                                                                                                                                                                                                    |                                                                                                                                                                                                                                                |
| <p><b>DOES</b></p> <ul style="list-style-type: none"> <li>• Checks soil and weather conditions before planting.</li> <li>• Uses traditional farming methods and seeks advice from others.</li> <li>• Uses a smartphone to search for farming information.</li> </ul> | <p><b>FEELS</b></p> <ul style="list-style-type: none"> <li>• Worried about crop failure.</li> <li>• Confused by changing weather conditions.</li> <li>• Hopeful that AI recommendations will improve productivity and income.</li> </ul>       |
